

WESTFALL COMPANY, INC.

ABRASION/CORROSION PRODUCTS

Westfall Company, Inc. has supplied corrosion and abrasion resistant products since 1972, with many of our original ceramic lined pipe still in service today. We specialize in handling the tough applications, such as coal slurry, fly and bottom ash applications, to name a few. We have a full time field repair crew on call 24/7. Our products can handle aggressive acid/caustic applications, as well as normal water corrosion.

See Our Web Site for Complete List
